- Rank your website fast [with this software](#) **OR**
- Get social signals
- Comment on blogs
- Answer questions on Quora with links back to your website.
- Rank and make commissions
- Rinse and repeat

This is exactly what I did to rank my new blog and make my first commissions which added up to \$503.54.

To succeed in this, you have to be patient and consistent.

Consistency is key. I cannot emphasize this enough.

I get into more detail in my case study which is a 20 page PDF ebook. You should check it out, it only **costs \$1 (one dollar)**. Here is the link
